## Retro Reflective Sign Installation Overnight Ramp and Full Highway Closures

*Multiple Locations in Contra Costa County*

**Contra Costa County, Calif.** – The California Department of Transportation (Caltrans) is continuing work on a project to install new retro-reflective sign panels on State Route 4 (SR-4), I-80, I-680 and I-580 at 164 locations. The project aims to replace overhead signs with higher reflective material to enhance nighttime visibility. There will be a total of 224 overhead sign panels placed in Contra Costa County, which are illuminated by motorists' headlights, making them more visible than traditional signage, and don't require electricity.

To ensure worker and public safety during installation, freeway closures will typically occur between midnight and 5:00 AM and Caltrans will never close two consecutive ramps. **It is anticipated that each sign will be replaced in one night shift.** Below is a list of upcoming work, including a full freeway closure. Caltrans will make additional announcements for sign work continuing after July 27. Please follow detour signs during closures. All work is weather permitting.

- **I-680 northbound from Danville Boulevard in Walnut Creek/Alamo to Monument Boulevard in Pleasant Hill 7/10/17 – 7/15/17:**
